Houston, TX, United States

RESEARCH INTERESTS

- My research asks how AI can move from strong benchmark results to systems people can actually use. I work on efficient vision models and agentic AI, especially model compression and adaptation, multimodal reasoning, and workflow-oriented agents. Medical imaging is a key application of this work, where efficiency, reliability, and integration with clinical workflows are essential.

EDUCATION

- **University of Alabama at Birmingham** Jan 2024 – May 2025
Ph.D. in Computer Science Birmingham, United States
- **Bowling Green State University** Aug 2019 – Dec 2023
Ph.D. student in Data Science Bowling Green, United States
- **Bowling Green State University** Aug 2018 – Jul 2019
Master of Science in Analytics Bowling Green, United States
- **Bowling Green State University** Aug 2014 – Jun 2018
Bachelor of Science in Business Analytics and Intelligence Bowling Green, United States

PROFESSIONAL EXPERIENCE

- **University of Texas Health Science Center at Houston**  May 2025 – present
Postdoctoral Research Fellow (mentor: Dr. Xiaolian Jiang) Houston, TX, United States
 - Pretrained **3D brain foundation models** on large-scale MRI cohorts for Alzheimer's-related downstream tasks.
 - Built a **fast whole-brain segmentation pipeline** with approximately **~1s inference**, reducing processing time from FreeSurfer-scale hours to deployment-level latency.
 - Designed region- and context-aware distillation methods for compact 3D segmentation models, achieving **sub-10M-parameter** students while preserving downstream performance.
 - **Outcomes:** Three **NeurIPS 2026** papers accepted: BrainTRACE and OpenBrain in the Evaluations & Datasets Track, and ValuSpec as a Poster. One **npj Health Systems** paper accepted and three **MICCAI 2026** papers accepted, including **two early accepts**, with **one Spotlight and one Oral presentation**; last and corresponding author on two distillation papers; one paper nominated and shortlisted for the **Best Paper and Young Scientist Award**.
- **University of Alabama at Birmingham (UAB)**  Jan 2024 – May 2025
Research Assistant (Advisor: Dr. Qing Tian) Birmingham, AL, United States
 - Led optimization and deployment of object detection models on NVIDIA embedded GPUs (e.g., Jetson Xavier and Orin) for real-time autonomous-driving perception.
 - Developed adaptive **knowledge distillation** methods for dense prediction and DETR-style detectors, reducing model parameters by up to **70%** while maintaining detection performance.
 - **Outcomes:** First-author papers in **ICCV 2025**, **WACV 2026**, and **WACV 2024**, with additional publications in WACV, ICASSP, IV, and T-IV.
- **Bowling Green State University (BGSU)**  Aug 2021 – Jan 2024
Research Assistant (Advisor: Dr. Qing Tian) Bowling Green, OH, United States
 - Developed **efficient AI** algorithms for object detection models under autonomous-driving deployment constraints.
 - Built multi-factor and selective dark-knowledge distillation frameworks that reduce model size and computation while preserving detection accuracy across modern detectors.
 - **Outcomes:** IEEE T-IV journal paper and ICPR/WACV publications in efficient object detection and autonomous-driving perception.

HONORS AND AWARDS

- NSF ACCESS Advanced Computing Allocation (≈\$10,000 GPU resources)

2026

• Graduate College Professional Development Funds

2023

• Analytics Instructional Fee Award

2018

ACADEMIC SERVICES

- Workshop Organizer

◦ [1st Latent Visual Reasoning \(LVR\) Workshop](#), WACV 2027

• Conference Reviewer

◦ Annual Conference on Neural Information Processing Systems (NeurIPS), 2026

◦ ACM International Conference on Multimedia (ACM MM), 2026

◦ ACL Rolling Review (ARR), 2026

◦ International Conference on Medical Image Computing and Computer-Assisted Intervention (MICCAI), 2026

◦ IEEE/CVF Conference on Computer Vision and Pattern Recognition (CVPR), 2026

◦ Association for the Advancement of Artificial Intelligence (AAAI), 2025, 2026

◦ International Symposium on Biomedical Imaging (ISBI), 2025, 2026

◦ IEEE/CVF Winter Conference on Applications of Computer Vision (WACV), 2024–2026

• Journal Reviewer

◦ IEEE Transactions on Circuits and Systems for Video Technology (TCSVT)

◦ Nature - npj Digital Medicine

◦ IEEE Transactions on Multimedia (TMM)

◦ IEEE Transactions on Neural Networks and Learning Systems (TNNLS)
